

Symposium:

THE TRANSFORMATIVE POWER OF DIGITAL DENTISTRY • 2025 • IBIZA

Ibiza | 02.05.25 - 03.05.25

Welcome!

Welcome to The Transformative Power of Digital Dentistry Symposium, an extraordinary gathering set to take place on May 2nd-3rd, 2025, in the vibrant and captivating heart of Ibiza.

This prestigious event is far more than a traditional conference— it's a movement towards the future, showcasing the profound advancements in dental technology that are reshaping the industry. The symposium unites an esteemed group of 300 to 400 dentists from over 11 nations—including the United Kingdom, Ireland, France, Germany, Belgium, the Netherlands, Spain, the Nordic countries, Australia, China, and various regions in Southeast Asia. This rich diversity will foster a truly global exchange of ideas and expertise.

What Awaits You

Prepare to immerse yourself in ground-breaking advancements that are setting new standards across every facet of the dental field. Engage with a meticulously selected audience of professionals who share a commitment to excellence and are passionate about redefining the future of dentistry.

Over these two days, you'll have the unique opportunity to:

- Gain Insight through captivating keynote sessions and panel discussions that delve into the latest innovations in digital dentistry.
- Hands-on learning in specialised workshops where you can interact with state-of-the-art technologies.
- Network and collaborate with leaders and peers from across the globe, establishing relationships that transcend borders.
- Experience the magic of Ibiza with team-building activities that embrace the island's culture and atmosphere, blending learning with relaxation.

The Transformative Power of Digital Dentistry Symposium promises a perfect blend of cutting-edge knowledge, vibrant networking, and the unforgettable allure of Ibiza. This event is more than just an opportunity to stay current; it's an invitation to be part of the movement that's redefining dentistry as we know it.

Join us on this journey into the future—where technology meets tradition, and innovation transforms care.

We look forward to welcoming you to Ibiza for a symposium that will leave a lasting impact on your practice and your perspective.

James Squirrell
CEO Modern Dental Pacific

Don't miss this chance to be part of something truly transformative!

Program & event details

SYMPOSIUM DETAILS:

Dates: Friday 2nd & Saturday 3rd May 2025
Venue: IBIZA CONGRESS CENTER
Location: Ibiza, Spain

SYMPOSIUM & EXHIBITION HOURS

Friday, 2nd May 08:00-16:45
Saturday, 3rd May 08:00-17:00

THE TRANSFORMATIVE POWER OF DIGITAL DENTISTRY takes place at Palacio de Congresos de Ibiza, an exquisite building, inspired by traditional Ibiza architecture that pays tribute to the typical Ibiza environment. The congress centre is located 2 minutes from the city centre on the eastern part of Ibiza. It's highly comfortable, easily accessible, and privileged with a natural environment and sea views.

CERTIFICATION CEREMONY

Keynote Speakers and Presenters

KEYNOTE SPEAKER
Prof. Dr. Lucio Lo Russo
Professor of Odontostomatology and Periodontology at the School of Dentistry of the University of Foggia, Italy

In the past five years, Prof. Dr. Lo Russo pioneered denture protocols using edentulous intraoral scanning. His published articles confirm the accuracy of this method. Contributors to this series unanimously endorse digital denture production for reduced chair time, fewer appointments, and consistent restoration quality, design, and fit.

Edentulous Scan Strategies

KEYNOTE SPEAKER
Prof. Prof. Ziad Salameh
Professor, Director

Dr. Ziad Salameh earned his Doctor in Dental Surgery and Master in Prosthodontics from St. Joseph University, Beirut. He later obtained a Master and PhD in Dental Biomaterials from Siena University, Italy. Dr. Salameh has expertise in CAD/CAM, 3D printing, and dental biomaterials like fiber posts and ceramics. He has published widely and is an international lecturer. Currently, he is a Professor and Research Center Director at the Lebanese University and a Visiting Professor at Siena University.

ZirNEER The Future of Ceramic Restorations

KEYNOTE SPEAKER
Dr. Ömer Acar
Founder at Hammashelppi

Dr. Ömer Acar is an entrepreneur minded dentist with a twist of media producing and marketing skills. Originally refugee from Turkey but lived and raised in Finland since age of 1 years. He has experience in setting up and managing agile companies in multiple sectors mainly with inherited entrepreneur skills from his parents. In addition to degree in dentistry he is educated at academic level in natural sciences such as maths, theoretical physics and chemistry at University of Helsinki, without a degree.

Integrating TrioClear™ F.I.T. and Implantology

KEYNOTE SPEAKER
Prof. Dr. Lieven Barbier
Professor & restorative dentist

Licentiate in Dentistry from KU Leuven (1989), specialist in Prosthetic Dentistry (1993), Doctor in Medical Sciences (1995), part-time scientific staff member in the Department of Prosthetic Dentistry at KU Leuven (1994-2000). Co-responsible for the Prosthetic Dentistry training program at the Dental Internship Center of AZ St-Jan Bruges. Additionally, works in a private practice in Bruges. Chairman of PUC West Flanders and Vice Chairman of LUTV. Former chairman of the VAPR (Association of Assistants in Prosthetic and Restorative Dentistry KU Leuven). Lecturer for the Institute of Osseointegration (since 2001). Board member of Digital Dentistry Belgium (since 2020). Guest lecturer at KU Leuven (since 2018).

Full arch Face driven dentistry

KEYNOTE SPEAKER
Rune Fisker
VP Product strategy, 3Shape

With over 24 years at 3Shape, currently serving as VP of Product Strategy and Business Unit Director for Dental Lab and Dental Clinic. Key roles include VP of Product Strategy (15+ years) and Manager of 3D Scanners (8+ years), where I built 3Shape's scanner development from the ground up to become a global market leader. Education includes a Ph.D. and M.Sc. in Computer Science and Mathematics from the Technical University of Denmark, as well as an Executive MBA from Copenhagen Business School.

AI revolution

KEYNOTE SPEAKER
Dr. Jordi Manauta
Dentist, scientific consultant & author

Dr. Jordi Manauta was born in Mexico City, where he graduated cum laude. in dentistry from UNITEC (Universidad Tecnológica de México) and apprentice of Dr. Miguel Angel Tamés (Mexico) and Dr. Walter Devoto (Italy). He continued his postgraduate studies in Operative and Aesthetics Dentistry Master in UIC (Universitat Internacional de Catalunya) in Barcelona. He is visiting professor in the Siena and Marseille University. He has developed various materials and instruments for aesthetic dentistry and photography in collaboration with international companies. He is the author of the book Layers (quintessence 2012). Scientific consultant for two European Journals. Author and co-author of many publications in international journals, he is frequently invited as a lecturer on these topics. He is dedicated to his private practice.

Single Incisor aesthetics: AI driven

KEYNOTE SPEAKER
Dr. Jasper Thoolen
Chef De Clinique/Owner

Jasper Thoolen graduated as a dentist from Radboud University in Nijmegen in 2016. He works as a dentist for Lassus Tandartsen in Oisterwijk, where he is mainly involved in restorative and reconstructive dentistry, digital smile design and digital treatment planning, orthodontics and implantology. Jasper is a sought-after speaker for international meetings and symposia and is a trainer at several post-graduate restorative dentistry courses. In addition to his work at the chair, he writes articles for dental journals and is involved in several respected dental firms as a key opinion leader. Jasper is also one of the founders of the online education platform Karma.Dentistry.

Digital avatar I & Digital avatar II

SPEAKER
Dr. Ronald Chan
President, Modern Dental Group

Dr. CHAN Ronald Yik Long is the chairman of the Modern Dental Board and executive Director.

Why is TrioClear™ become a leading brand in aligners

SPEAKER WORKSHOP
Ruud Sips
Product manager implantology, Modern Dental Group Europe

Raised near my father's dental lab, I pursued dentistry at ACTA in Amsterdam, with post-doc degrees in implantology and orthodontics. As a clinical director at a university and the largest Dutch healthcare chain, I've blended clinical proficiency with managerial skills, ensuring high-quality, innovative care.

Abutments as individual as your patient

SPEAKER
Torsten Schwafert
CEO Modern Dental Europe BV.

Torsten Schwafert is the CEO leading the business development of the Group in Europe.

Opening Remarks Minimal care to maximal human impact

SPEAKER WORKSHOP
Dr. Marie-Pierre Moulin-Romsee
Dentist/Product Management Manager, TrioClear™ Europe

Marie-Pierre Moulin-Romsee, a dentist since 1996, specialized in orthodontics and established her own clinic in Belgium. She joined Modern Dental Europe in 2021 as the TrioClear™ manager for Europe, overseeing aligner education, clinical support, and product development.

SPEAKER WORKSHOP
Roeland De Paepe
Head Product Management, Modern Dental Group Europe

Roeland began his dental career in 1993 at the KULeuven dental lab. From 2000 to 2006, he was the „Technical and Training Manager” for GC EUROPE. After starting his lab in 2006, he remained a freelance trainer and KOL for GC. Rejoining GC as a Product Manager in 2018, he now heads Product Management at Modern Dental Europe since February 2020.

Align and Restore

Workshop outlines

ALIGNERS EXPERT ADVANCED: ALIGNING, RESTORING, AND MANAGING COMPLEX TOOTH MOVEMENTS

Master complex tooth movements and restorative techniques with TrioClear™ aligners in this hands-on course for challenging cases. Perfect for dental professionals integrating aligner therapy with advanced restorative solutions.

By the end of this course, you will be equipped to handle intricate aligner cases and provide comprehensive care to your patients, enhancing both. aesthetics and functionality.

ALIGNER FOR STARTERS ESSENTIALS: MASTERING THE BASICS OF ALIGNERS AND IPR

Dive into the fundamentals of treating patients with TrioClear™ aligners in this comprehensive starter workshop. Perfect for dental professionals new to aligner therapy, this session covers the achieve successful outcomes with essential actions required to clear aligners and introduces the benefits of Boutique Bleaching as part of a complete aesthetic treatment plan.

By the end of this workshop, you will have a strong foundation in managing aligner cases with confidence and precision.

ALIGNER WORKSHOP VIRTUAL MONITORING: SAVE CHAIR TIME AND ENHANCE EFFICIENCY WITH REMOTE MONITORING

With everyone's busy schedules, this method of patient follow-up offers significant benefits by saving chair time and enhancing the efficiency of aligner treatments.

In this workshop, you will:

- Be introduced to remote aligner treatment monitoring.
- Learn how remote monitoring saves chair time.
- Discover how remote follow-up benefits both patients and practitioners.
- Explore the possibilities of integrating remote monitoring into your practice.

JASPER THOOLEN RAYFACE TRANSFORMING SMILE DESIGN WITH RAYFACE: A COMPREHENSIVE HANDS-ON EXPERIENCE

Discover RAYFace, the revolutionary tool enhancing precision, efficiency, and comfort in dental treatments. Learn how it creates a seamless experience for life-changing results.

This workshop offers a practical approach to harnessing the full potential of RAYFace, allowing you to incorporate this cutting-edge technology into your practice and deliver exceptional, personalised results.

PROF. DR. LO RUSSO IOS SCAN STRATEGY FOR EDENTULOUS PATIENTS EVO FUSION DIGITAL DENTURES: REVOLUTIONIZING DENTURE CREATION WITH LO RUSSO RETRACTORS

Discover the future of denture technology with EVO FUSION. Powered by Lo Russo retractors and advanced scanning, this system delivers a precise, comfortable fit.

In this workshop you will:

- Learn how Lo Russo retractors enable passive-state scanning for edentulous jaws.
- Understand muco-compression vs. muco-static (IOS scan) for better denture retention.
- Explore lab-optimized digital workflows for stronger, better-fitting dentures.
- Learn the latest scan strategies.
- Master the EVO FUSION system to elevate your denture practice and deliver superior results.

IOS GENERAL SCAN STRATEGIES MEDIT OPTIMIZING INTRAORAL SCANNING: STRATEGIES WITH ELETRA, 3SHAPE, AND MEDIT

Unlock the power of intraoral scanning with advanced strategies using Eletra, 3Shape, and Medit. Enhance your practice's digital workflow with insights to boost precision, speed, and integration.

In this workshop, you learn to:

- Maximize the features of Eletra, 3Shape, and Medit for seamless digital impressions.
- Implement efficient scanning protocols for complex and implant cases.
- Designed for dental professionals seeking practical solutions.

F.I.T. 2.0 WORKSHOP: REVOLUTIONARY LAYERED INJECTION FOR AESTHETIC DENTISTRY

Join our hands-on workshop on F.I.T. Veneers, the innovative solution in aesthetic dentistry. Learn the fast, minimally invasive Forma® Injection Technique (F.I.T.) for veneers.

In this workshop you will:

- Master F.I.T.'s two-layer injection for natural results.
- Learn how the minimal-prep process preserves tooth structure.
- Understand the ABC (aligning, bleaching, composite) techniques.
- Get hands-on with the F.I.T. kit and injectable composites.
- Explore digital workflows for enhanced treatment accuracy.
- Designed for dental professionals seeking practical, aesthetic solutions.

MODJAW™: A POWERFUL COMMUNICATION SOLUTION

Discover MODJAW™'s revolutionary 4D technology that captures real-time jaw motion to enhance diagnosis and treatment planning. Seamlessly integrated into digital workflows, it provides valuable insights into occlusion and functional dynamics.

What You'll Learn in This Workshop:

- Revolutionary 4D Technology: Capture real-time jaw motion to enhance diagnosis and treatment planning.
- Seamless Integration: Discover how to effortlessly incorporate 4D technology into your digital workflows.
- 2025 Innovations: Get a first look at the new platform designed to optimize 4D data preparation for better design outcomes.
- Transform Digital Dentistry: Explore advanced jaw movement registration and cutting-edge 4D workflows reshaping the field.

SMILECLOUD: THE INNOVATIVE DESIGN AND COLLABORATION PLATFORM

Discover Smilecloud, the innovative cloud-based platform designed to revolutionize your workflow.

What You'll Learn in This Workshop:

- Powerful Smilecloud Features: Master seamless communication, secure file sharing, and advanced smile design tools to elevate your practice.
- Enhanced Collaboration: Learn to create personalised treatment plans that deliver stunning, tailored results for your patients.
- Introducing 3DNA: Discover Smilecloud's groundbreaking 3D capabilities and take your smile design to the next level.
