Our Group

Customers at our core

As the largest and most comprehensive network of dental labs in Australasia, we set the benchmark in quality dental care solutions. Our unified priority is to provide exceptional customer service and products.

Specialising in medical dental devices and solutions, we're committed to delivering outstanding products, services and timely delivery for all our customers and clients. We work tirelessly in pursuit of excellence to achieve the best results every time.

Our talented and professional team are proud to be the preferred choice for dentists across Australia and the Pacific.

When you partner with the MDP Group, you can be confident that you're receiving the very best quality products and support - helping you to grow and manage your practice and ensuring that you're giving your own patients the best possible outcomes, every time.

// We believe great dental care starts with strong partnerships, empowering clinicians through consistency, quality, and innovation to deliver the very best patient outcomes. //

Tara Cullen

Chief Executive Officer

Supporting your success

Curating a modern dental lab for the future

We're dedicated to providing exceptional quality and experiences for our customers, their patients and our people. Because we understand that is what leads to exceptional results.

We use the highest quality materials and processes in crafting our products. We embrace best practices in both the dental industry and the customer service industry to deliver our services. And we're committed to continuous improvement.

Our goal is to deliver more to you so that we're not just meeting, but exceeding, your own exacting standards. And our vision is to be one of the world's most responsible modern dental laboratories. We embrace this vision by doing good business, for our customers, our people, our suppliers and our planet.

Our customers and their patients come first

Our customers live at the heart of everything we do. We strive to create a friendly, seamless and responsive customer service experience that delivers outstanding value, every step of the way. We're here to better your ability to serve your patients each and every day.

We're dedicated to our employees

Everything we've achieved, and will continue to achieve, is down to the dedication of our talented team. We know that a thriving team means a thriving business. So, from culture to training, we strive to curate an enjoyable, motivating and empowered work environment for our people.

We're committed to the dental industry as a whole

We're passionate about supporting better dentistry. And that means driving innovation, education and service not just in our own business, but across our industry as a whole. We continually focus on our own improvements while also offering opportunities for practitioners to grow and learn.

The benchmark in quality dental care

A world-leading dental laboratory network

As the largest and most comprehensive network of dental laboratories in Australasia, we set the benchmark in quality dental care.

At the MDP Group, every aspect of our laboratory network has been designed to make sure your patients get the best results, every time.

Andent

Experience has a name

Founded as a family business, Andent takes pride in crafting Australian-made, quality dental products so you can give your customers the highest level of care. Andent fabricate quality restorations for dental prosthetics specialising in implant, ceramic, crown and bridge procedures, backed by knowledge and experience.

Proform

Experts in thermoforming

Proform manufacture quality mouthguards for a variety of sports and requirements. Servicing Australian customers, clients, and elite athletes from their Melbourne base, Proform are the Australian experts in thermoforming dental products. Proform mouthguards are sold exclusively through Andent.

**Southern
Cross Dental**

Here for you

As the leading full-service lab in Australia and New Zealand for 40+ years, Southern Cross Dental is here to provide you and your patients with high quality dental products and unrivalled service. Our comprehensive range of products includes fixed and removable prosthodontics, all-ceramic restorations, implants, occlusal appliances and anti-snoring devices.

TrioClear®

The best smile without compromise

TrioClear® is an innovative new clear aligner solution designed to transform dentists' service and patients' smiles. TrioClear® teeth aligners stay in place effortlessly with very few attachments, offering patients a comfortable, progressive clear aligner solution.

3D Sleep

Helping put sleep problems to rest

3D Sleep supports dental professionals with effective, high-quality solutions for managing snoring, sleep apnoea, and bruxism. Oral appliances offer a proven, comfortable and patient-friendly treatment option.

The three-step approach

**We can help you
in just three easy steps.**

**Servicing dentists across Australia
and New Zealand, we offer a true
'local' service to more dentists than
any other laboratory business in
Australasia.**

And we make it easy.

- 1** Choose your lab
- 2** Fill in your lab sheet
- 3** Send us your digital scan or take advantage of using our courier satchels

We will do the rest.

Get the best results, every time

Give your practice the edge it deserves with our leading digital workflow. We accept scans from any intraoral scanner.

Whether you are looking to send digital impressions to your laboratory, or are seeking an intraoral scanning solution for your surgery, please feel free to contact us.

A rewarding digital pathway

Choose the right scanner for your patients and reap the rewards.

Choose your scanner

Intraoral scanners for digital impressions are becoming the standard of care.

While most scanner systems offered clinicians little choice about where to send their scans, changes in technology and scanner systems on the market mean you can now choose what is best for your patients and your practice.

To support dentists who are looking to embrace a digital pathway, we offer a digital rebate* which rewards you each time you submit a digital scan or traditional case.

If you already have a scanner in your practice, we've made your journey easier.

Join with ease

Let us help you make the change to being a complete digital practice.

It's easy to enrol and start earning towards a monthly rebate credited to your account.

- 1 Sign up to the Digital Cash Rebate* online through:
Southern Cross Dental
scdlab.com/digital-rebate
or
Andent
andent.com/rebates
- 2 Send us a minimum of five digital cases per month to be eligible for your cash rebate*.
- 3 Start using your rewards for any case submission.

Earn with each scan

Send at least five digital case files through to us and begin earning rebate dollars* to enjoy at the end of each month, credited directly to your account. After your fifth digital case, any of your digital or traditional cases will add to your monthly spend. Conditions apply, please refer to our terms and conditions online at:

scdlab.com/digital-rebate

or

andent.com/rebates

Save with each case

Not only will your rewards build for each time you send a scan or submit a case, but you will also enjoy no courier charges either direction – so you can spend your money where and when you need it.

Access each opportunity

We believe that ongoing professional education for all skill levels is invaluable. As a member of our Digital Cash Rebate*, you get access to our high-quality educational workshops and resources that improve your knowledge of the best and most innovative modern dental practices.

Monthly Spend	Monthly Rebate
\$2,000 [^]	\$250
\$4,000 [^]	\$500
\$6,000 [^]	\$750
\$8,000 [^]	\$1,000

[^]Net Monthly Spend excluding GST.

*Our Rebate Terms and Conditions

The following conditions apply:

- Rebate is based on Monthly Lab Spend. Spend excludes Clear Aligner cases.
- Applies to any customer that links their scanner to any of our MDP labs.
- A minimum of 5 digital cases per month are required to meet rebate requirements.
- Applies to all scanners.
- Rebate only applies if existing and any new MDP accounts are paid up to date.
- Cannot be used in conjunction with any other offer or discounts.
- 3-year term with potential for 1 year plus addition.
- Rebate will be received from the consecutive month of achieving the required spend. This credit will appear as an invoiced item against your monthly statement.
- The maximum rebate applicable is \$1,000.

Experience has a name

We're proud to be at the forefront of the latest dentistry technology offering premium Australian-made dental solutions from our Melbourne-based dental lab. Pioneers of digital dentistry in Australia, we use advanced dental technology and devices, including computer-based and digital components, to create innovative and customised dental solutions for our customers and their patients. We're dedicated to providing high quality products in a timely manner, through our local state-of-the-art facilities.

The best smile without compromise

The MDP Group is proud to offer dentists and customers a superior product ensuring superior results all thanks to the TrioClear® difference. TrioClear® teeth aligners stay in place effortlessly with very few attachments, offering patients an innovative, comfortable solution.

All TrioClear® teeth aligners have been created with sustainability in mind, and for every complete case of TrioClear® aligners, we will plant ten native trees and shrubs in degraded land to restore natural habitat in Australasia.

TrioClear® Pricing

TrioClear® Aligners are sold exclusively through Southern Cross Dental and Andent Dental Labs.

Empower dentists to help patients sleep better than ever.

Everyone knows the power of a good night's sleep – with 3D Sleep, patients can truly experience it.

Founded by leading dental sleep practitioners, 3D Sleep combines clinical expertise with advanced technology to deliver a complete solution for dentists treating patients with snoring, obstructive sleep apnoea (OSA), and bruxism.

At 3D Sleep, we stand behind the quality of our products. All new 3D Sleep oral appliances are warranted against defects in materials and workmanship for a period of three (3) years from the date of invoice.

Warranty Terms:

- This warranty covers intraoral breakages only (i.e., breakages occurring while the appliance is being worn as prescribed).
- This warranty does not cover:
 - » Resetting of bites or occlusal adjustments
 - » Modifications or repairs performed by non-3D Sleep technicians
 - » Damage resulting from dental restorative work completed after the appliance was issued
 - » Wing or component repairs not resulting from a manufacturing defect
 - » Damage caused by improper use, lack of care, or external impact
- All warranty service and evaluations must be conducted by 3D Sleep or its authorised representatives.

Clinical Disclaimer:

3D Sleep does not guarantee the clinical efficacy of any appliance in the treatment of snoring, obstructive sleep apnoea (OSA), or bruxism. Treatment outcomes may vary between patients and should be assessed and monitored by a qualified healthcare professional

Prices exclude GST. For certain products GST will be added. Prices as of 15/08/2025 In-lab days exclude courier time. Prices are subject to change without notification.

Focus on an evergreen future

We're continuously innovating, investing and growing our durable business. From the beginning we've been open and transparent about our sustainability policy, helping us to remain accountable and providing a platform to educate all our stakeholders.

We are committed to full compliance with all environmental and sustainability legislation and regulations, and we respect our obligations to address pollution, waste disposal, safe storage of certain chemicals, and workplace health and safety.

Here are some of the key practical and tangible ways we're implementing our environmental policy:

- Reduce non-packing waste at all sites governed by a relevant packing committee.
- Reduce the amount of plastic containers used to send items to our laboratory.
- Use eco-friendly cardboard boxes to pack your cases.
- Recycle the cardboard boxes we send your cases in and use that in your packing process.
- Continue to prioritise sustainable business practices through all aspects of design, production/manufacturing, transport, usage and sustainable disposal at the end of a product's useful life.

- Focus on reforestation through TrioClear®'s One Tree Planted partnership. Last year the impact was significant with 25,730 trees planted.
- Working with the Australian Packaging Covenant, Southern Cross Dental is reducing the harmful impact of packaging on the environment, reduce waste and shift towards recyclable, reusable or compostable packaging. Just last year mixed recycling at all our sites captured and recycled 8 tonnes of materials.
- In 2026, Andent partnered with the Australian Dental Sustainability Initiative (ADSI) as part of its ongoing commitment to reducing environmental impact. Through this partnership, selected dental materials are collected and recycled rather than sent to landfill, supporting practical, locally driven sustainability solutions within the Australian dental industry.

We also know that environmental commitment is an evergreen process, one that is ever-changing, evolving, and growing. So, we continue to review all aspects of the business for sustainable opportunities and have introduced a circular economy approach to our business to make sure we're doing everything we can to align with best environmental practice.

We work responsibly

Working within the dental laboratory services industry means we're required to comply with a variety of local, state and federal regulations and compliance requirements, including dentist compliance and dental lab regulations.

We're committed to meeting each and every one of these requirements in full and have excellent governance processes and procedures in place which allows us to actively meet those requirements as needed.

We have implemented ISO 13485: 2016 Medical Devices as a Quality Management System (QMS) across all Australian and overseas locations. **ISO 13485 is the gold standard for Quality Management Systems and we are the only Australian dental lab who holds this certification.** This QMS ensures that all products are manufactured and supplied according to strict processes that can deliver consistent products, address risk, and provide traceability to all aspects of manufacturing.
